First announcement

The 9th BBBB Conference on Pharmaceutical Sciences "Pharma sciences of tomorrow" will be held September 15 - 17, 2022, in Ljubljana, Slovenia.

The conference is intended to be hosted onsite in Ljubljana according to COVID-secure guidelines to best facilitate in-person networking and learning.

The 2022 BBBB Conference will provide focused panels in all fields of pharmaceutical sciences to establish an informative and successful BBBB congress with the aim of bringing together the community and strengthening the BBBB scientific network.

The program consists of plenary and keynote lectures from well known experts in different areas of pharmaceutical sciences, coming from all BBBB partners and broader scientific community. There will also be plenty of opportunity for younger researchers to present their results in the form of oral and poster presentations in an international environment. The conference will offer opportunities for exchange of scientific ideas between young and established scientists and professionals, as well as between people from academia, industry and regulatory authorities.

Main topics of the 9th BBBB Conference:

- ✓ **Pharmaceutical technology:** towards digital, sustainable and continuous processing of user-friendly (biotech) medicines; 4 separated sections covering new trends in industrial pharmacy, development of user-friendly oral dosage forms, hot-melt processing and printing technologies in pharmaceutical manufacturing, formulation and delivery challenges of small and biotech drugs.
- ✓ **Pharmaceutical chemistry:** new molecules for treating neurodegenerative diseases, and bacterial/ viral infections (2 sections).
- ✓ **Pharmaceutical biology:** peptides as therapeutics and biorecognition elements, and m-RNA vaccines.
- ✓ **Clinical pharmacy and laboratory medicine:** therapeutic drug monitoring (TDM) & Pharmacogenomics in personalised medicine (2 sections).
- ✓ **Pharmaceutical analytics:** emerging contaminants in environmental samples and pharmaceutical products.
